Reasons to choose...

Insulated Sectional Garage Doors

The ultimate in performance - Pages 6 - 9

Insulated panels and weather seals make sectional garage doors the ultimate energy-saving choice – perfect if your garage is under a bedroom or you use it for a workspace or gym.

Vertical opening and maximum drive through height and width makes parking easy and with no out-swing, you can park your car right up to your garage door!

For remote control, see page 18.

Insulated Roller Garage Doors

Simple, stylish, safe and secure - Pages 10 - 11

Insulated roller garage doors are the space saving solution with no protruding tracks and corrosion resistant slats that roll neatly away.

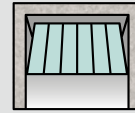

Slats, draught brushes and a flexible bottom seal reduces energy loss and sound transmission while strong extruded guides provide excellent security, effectively resisting attack by intruders.

Remote control as standard.

For a helpful overview and comparison of what each garage door has to offer, see the table on page 4...

Up & Over Garage Doors

Excellent value and choice - Pages 12 - 15

A combination of durability and value for money, up and over garage doors are a low maintenance solution for busy households – high grade, corrosion resistant components keep doors operating smoothly.

With a choice of door materials, designs and colours, designing a door to complement your home is easy!

For remote control, see page 18.

Side Hinged Garage Doors

Classic yet contemporary - Pages 16 - 17

For the ultimate access on foot, side hinged garage doors are made from strong, durable insulated panels and high-grade fittings for a quality finish.

Concealed hinges remove an obvious point of attack and the security lock cylinder provides excellent security – a great choice if you use your garage for storage!

Product Warranties

**Terms and conditions apply -
see: www.evander.com**

See below an overview of the warranty information for each garage door type from the following manufacturers: Hörmann (Sectional and Up & Over Garage Doors), Aluroll (Roller Garage Doors), Garador (Sectional and Up & Over Garage Doors) and Teckentrup UK (Side Hinged Garage Doors). Further terms and conditions will apply to the top level warranties shown below - For full terms and conditions see: www.evander.com

Insulated Sectional Garage Doors

Hörmann & Garador:

From the date of purchase, the purchaser receives a 10-year warranty on the safe function of the Hörmann/Garador garage door.

For replacement parts, the warranty period is 6 months or at least the remainder of the warranty period.

From the date of purchase, the customer receives a 5-year warranty on:

- springs, cables, rollers, hinges and return pulleys for garage doors used under normal conditions with max. 10 door cycles (open/close) per day.
- colour and UV resistance of the decor foil and decor printing.

Insulated Side Hinged Garage Doors

Teckentrup UK:

2-year manufacturer's guarantee on window units, hinges, locks, handles and stays (opening/closing max. 5 times a day).

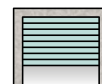

10-year manufacturer's guarantee on panels against rust penetration from inside to outside.

10-year manufacturer's guarantee against door panel separation of steel from foam.

10-year manufacturer's guarantee on material and manufacturing flaws of all non-moving parts of the frame that are verifiably unusable or whose usability is substantially compromised.

10-year manufacturer's guarantee on floor seal, intermediate seals and frame seals against rotting.

Insulated Roller Garage Doors

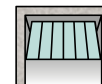

Aluroll:

From point of delivery, Secureroll roller garage doors from AluRoll have a warranty period of 5-years.

Motors and controls from Somfy have a 5-year warranty period - Controls cover the control panel and/or remote control.

Up & Over Garage Doors

Hörmann & Garador:

The purchaser is granted a limited warranty covering the safe and reliable function of the Hörmann/Garador garage door for a period of 10-years from the date of purchase.

The warranty period for replacement parts is 6 months or to the end of the current warranty period, whichever is longer. In the case of timber garage doors, a limited warranty of 2-years is granted on the door panel alone subject to terms and conditions.

The purchaser is given a 5-year guarantee from the date of purchase on the springs, wire cables, track rollers, hinges and guide rollers of garage doors in normal use, whereby normal use constitutes no more than 5 door operations (open/ close) per day).

The door mechanism and steel frame (if applicable) is covered by the 10-year limited warranty period.

Insulated Sectional Garage Doors

The ultimate in performance

Sleek and stylish, a sectional garage door will transform the look of your home whilst making good use of space inside and out.

The insulated versions of the door have impressive thermal performance that help keep the weather at bay, making the garage space a pleasant environment all year-round.

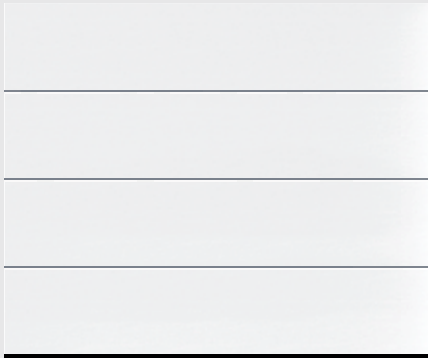

- ✓ Energy-saving insulated panels
- ✓ Vertical opening - park right up!
- ✓ Maximum drive through width & height
- ✓ Secured by Design available on Hörmann RenoMatic Sectional Garage Doors*
- ✓ Remote control operation available
